Social Work Capstone Projects May 23 2022 The only practical guide for helping social work students create high-quality applied capstone research projects from start to finish This “mentor-in-a-book” provides social work students with invaluable information on designing,

implementing, and presenting first-rate applied research projects focused on improving social work programs and services. Taking students step-by-step through the entire process, the book helps students plan their projects by providing descriptions of the various research methodologies that can be used to improve social work programs and services. It offers extensive instruction on how to write effectively by providing detailed information on all written components of capstone

research projects, as well as the dos and don'ts of writing research reports. Covering data collection methods, program evaluation, organization and community needs assessments, practice-effectiveness studies, and quantitative and qualitative data analysis, this brand-new book also addresses best practices for presenting findings upon completion of the applied research project. Additional features include abundant case examples demonstrating the application of theory to practice and an examination of both qualitative and quantitative research approaches, while also helping students demonstrate social work practice competencies within their capstone projects. Practice activities in each chapter help students apply knowledge to their research projects; and technology exercises help students master important digital research techniques. A capstone project checklist and competency log help students monitor progress, and QR codes provide supplementary support and resources. Additional resources include competency rubrics, detailed group exercises for each chapter, and a sample syllabus for faculty. Purchase of the book includes digital access for use on most mobile devices or computers. Key Features: Delivers step-by-step information on creating high-quality social work capstone projects from conception through presentation Includes a detailed summary of the major applied research approaches to improving social work programs and services Explains how to research literature and write a problem statement on a social service issue Contains extensive information on how to write effective capstone research papers along with abundant examples Helps students to demonstrate social work practice competencies Offers case examples throughout to demonstrate the application of theory to practice Presents practice activities and technology exercises in each chapter Provides a capstone project checklist and competency log Includes QR codes providing additional resources for each chapter

Computer Software Cataloging Feb 26 2020 This book, first published in 1985, examines the professional librarians' needs for cataloging

computer software. Examples of software labels, title screens, and catalog cards are used to illustrate how to catalog microcomputer software according to the 1974 Guidelines to Chapter 9 of the Anglo-American Cataloging Rules, 2nd edition. The samples include educational programs, educational games, and business and public disks and cassettes.

Sports Medicine and Neuropsychology May 11 2021 The focus of Sports Medicine and Neuropsychology is the question of what role the neuropsychologist should have in the diagnosis, treatment, and

management of sports-related concussions. The goal of this special issue is to examine the most current issues facing this growing and dynamic field of neuropsychology. The first article is dedicated to reviewing current issues in the neuropsychological assessment of concussions in sports-related events. The next paper examines data on over six million practice-and-game-exposures among athletes participating in the NCAA's Injury Surveillance System. Two contributions examine the empirical role that neuropsychologists can have in the area of concussion research. The final two papers review the advantages and limitations on computer-based assessment of sports-related concussions and discuss neuropsychology's role in return-to-play decisions following them.
