Arbitration and Dispute Resolution in the Resources Sector Dec 06 2020 This book provides a comprehensive Australian perspective on the resolution of resources disputes. In particular, it focuses on the use of arbitration, mediation and adjudication in the resources sector. It concentrates on arbitration as the preferred method of dispute resolution, including international commercial and investor-state arbitration. The book offers fascinating insights into the use of arbitration to investment disputes involving resources companies in the African OHADA countries, Australia and other countries. It offers an Australian perspective which will be useful to discerning arbitration scholars and dispute resolvers. In addition, the book provides useful information on how to draft arbitration clauses for resources sector contracts. This publication will be of interest to members of the academic research community and will also appeal to dispute resolution professionals and practitioners.

China and International Investment Law Jul 13 2021 The first volume in the Silk Road Studies in International Economic Law Series, China and International Investment Law: Twenty Years of ICSID Membership examines cutting-edge issues of international investment law and arbitration in interaction with China, the second largest economy of the world.

Consumer Financial Dispute Resolution in a Comparative Context Apr 10 2021 Shahla F. Ali presents comparative empirical research about the design of consumer financial dispute resolution mechanisms in Asia, America and Europe.

Bribery and Corruption Feb 08 2021 As businesses continue to expand globally into new and emerging markets, bribery and corruption risks have increased exponentially. Bribery and Corruption offers a comprehensive look at this growing problem, and at the Foreign Corrupt Practices Act (FCPA) and other international anti-bribery and corruption conventions. Presenting hypothetical examples of situations companies will face, along with practical solutions, the book offers detailed global guidance on a region and country-specific basis. The FCPA prohibits US companies and their subsidiaries from bribing foreign officials, either directly or indirectly through intermediaries, for the purpose of obtaining or retaining business. It also requires companies to keep accurate records of all business transactions and maintain an effective system of internal accounting controls. Internationally, the Organization of Economic Cooperation and Development's (OECD's) anti-bribery convention has been adopted by 38 countries and creates legally binding standards related to bribery of foreign public officials. Written by renowned accounting fraud experts Richard A. Sibery and Brian P. Loughman, and providing an introduction and overview of the Foreign Corrupt Practices Act (FCPA) and international bribery laws, Bribery and Corruption considers: How to conduct FCPA risk assessments and investigations How to consider FCPA specific financial controls How to implement an FCPA compliance program and how to measure FCPA compliance The risk of bribery and corruption continues to be an area of concern for companies around the world, but armed with Bribery and Corruption, it is easier than ever to understand the challenges that exist and how to deal with them.

Human Rights and Business Jul 01 2020 This book addresses the ever more urgent question as to whether individuals, indigenous peoples or other vulnerable groups should be entitled to remedies under international law for violations of their human rights by transnational corporations.

Blackstone's Civil Practice 2013: The Commentary Mar 09 2021 Adopting a distinctive narrative approach based on the chronology of a claim, Blackstone's Civil Practice 2013: The Commentary provides authoritative guidance on the process of civil litigation from commencement of a claim to enforcement of judgments. It addresses civil procedure in the county courts, the High Court, the Court of Appeal, and the Supreme Court as well as more specialist matters such as insolvency proceedings, sale of goods, and human rights, providing expert analysis on a comprehensive level. The narrative commentary is supported by the comprehensive Blackstone's Civil Practice 2013 Procedural Checklists. 38 Procedural Checklists summarize the steps to be taken, and include invaluable information on documentation, time limits, and required actions, as well as applicable Civil Procedure Rules (CPR) and Practice Directions (PD) in a concise format to provide an additional research tool. Straightforward navigation is ensured by a detailed and user-friendly index as well as a quick-reference guide inside the front cover, providing an alternative point of access for those more familiar with the CPR. Written by a team of expert practitioners and academics, it is an ideal tool for those requiring quality and in-depth analysis. The text is fully referenced to the CPR and PD making the book easy to use alongside other sources at your desk as well as in court. Turn to Blackstone's for reliable commentary from a team of experts on unfamiliar points of procedure and all your research needs. You may be interested to know that The Commentary is directly taken from the established full service volume, Blackstone's Civil Practice 2013 which includes the text of the CPR and PD, Pre-Action Protocols, selected legislation, and court fees orders. Electronic versions of the Procedural Checklists in Blackstone's Civil Practice 2013 are available from IRIS Laserform.

Property and Trust Law in Singapore Jan 07 2021 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of property in Singapore deals with the issues related to rights and interests in all kinds of property and assets - immovable, movable, and personal property; how property rights are acquired; fiduciary mechanisms; and security considerations. Lawyers who handle transnational disputes and other matters concerning property will appreciate the explanation of specific terminology, application, and procedure. An introduction outlining the essential legal, cultural, and historical considerations affecting property is followed by a discussion of the various types of property. Further analysis describes how and to what extent legal subjects can have or obtain rights and interests in each type. The coverage includes tangible and intangible property, varying degrees of interest, and the various ways in which property is transferred, including the ramifications of appropriation, expropriation, and insolvency. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. The book includes ample references to doctrine and cases, as well as to relevant international treaties and conventions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for any practitioner faced with a property-related matter. Lawyers representing parties with interests in Singapore will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative property law.

Practitioner's Guide to Global Investigations Aug 22 2019 There's never been a greater likelihood a company and its key people will become embroiled in a cross-border investigation. But emerging unscarred is a challenge. Local laws and procedures on corporate offences differ extensively - and can be contradictory. To extricate oneself with minimal cost requires a nuanced ability to blend understanding of the local law with the wider dimension and, in particular, to understand where the different countries showing an interest will differ in approach, expectations or conclusions. Against this backdrop, GIR has published the second edition of The Practitioner's Guide to Global Investigation. The book is divided into two parts with chapters written exclusively by leading names in the field. Using US and UK practice and procedure, Part I tracks the development of a serious allegation (whether originating inside or outside a company) - looking at the key risks that arise and the challenges it poses, along with the opportunities for its resolution. It offers expert insight into fact-gathering (including document preservation and collection, witness interviews); structuring the investigation (the complexities of cross-border privilege issues); and strategising effectively to resolve cross-border probes and manage corporate reputation. Part II features detailed comparable surveys of the relevant law and practice in jurisdictions that build on many of the vital issues pinpointed in Part I.

The Politics of Energy and Memory between the Baltic States and Russia Oct 28 2022 Since the 1990s, Baltic-Russian relations have been amongst the most contentious on the European continent. Energy security concerns, historical legacies, and the status of Russian minorities have all proved key flash points. Baltic-Russian relations have been described as a 'litmus test' of Russia's willingness to leave behind its imperialist ambitions; simultaneously the policies of Tallinn, Riga or Vilnius towards Russia can have a direct impact on EU-Russian and NATO-Russian relations. The Baltic states share similar histories and resources, and face the same geopolitical challenges. All are dependent on Russia for energy yet, as this fascinating study reveals, they have pursued very different foreign policies towards their powerful neighbour. In *The Politics of Energy and Memory between the Baltic States and Russia* Agnia Grigas provides an unprecedented analysis of contemporary Baltic-Russian relations and identifies the causal factors that drive the foreign policies of the Baltic states in such divergent routes. Supported by case studies on the oil and gas sectors as well as the tug of history, this book is an invaluable resource for scholars and policy makers.

The Rise of the Female Executive Nov 17 2021 Provides a timely review of gender equality in the boardroom, and through interviews with mentors and mentees it illustrates how mentoring can play a part in helping women stay engaged in their career. This book includes international comparisons and an examination of the UK and EU political environments.

EU Administrative Law Sep 22 2019 The third edition of EU Administrative Law provides comprehensive coverage of the administrative system in the EU and the principles of judicial review that apply in this area. This revised edition provides important updates on each area covered, including new case law; institutional developments; and EU legislation. These changes are located within the framework of broader developments in the EU. The chapters in the first half of the book deal with all the principal variants of the EU administrative regime. Thus there are chapters dealing with the history and taxonomy of the EU administrative regime: direct administration; shared administration; comitology; agencies; social partners; and the open method of coordination. The coverage throughout focuses on the legal regime that governs the particular form of administration and broader issues of accountability, drawing on literature from political science as well as law. The focus in the second part of the book shifts to judicial review. There are detailed chapters covering all principles of judicial review and the discussion of the law throughout is analytical and contextual. It begins with the principles that have informed the development of EU judicial review. This is followed by a chapter dealing with the judicial system and the way in which reform could impact on the subject matter of the book. There are then chapters dealing with competence; access; transparency; process; law, fact and discretion; rights; equality; legitimate expectations; two chapters on proportionality; the precautionary principle; two chapters on remedies; and the Ombudsman.

The Regulatory Aftermath of the Global Financial Crisis Jul 25 2022 The EU and the US responded to the global financial crisis by changing the rules for the functioning of financial services and markets and by establishing new oversight bodies. With the US Dodd-Frank Act and numerous EU regulations and directives now in place, this book provides a timely and thoughtful explanation of the key elements of the new regimes in both regions, of the political processes which shaped their content and of their practical impact. Insights from areas such as economics, political science and financial history elucidate the significance of the reforms. Australia's resilience during the financial crisis, which contrasted sharply with the severe problems that were experienced in the EU and the US, is also examined. The comparison between the performances of these major economies in a period of such extreme stress tells us much about the complex regulatory and economic ecosystems of which financial markets are a part.

Mediation in International Commercial and Investment Disputes Oct 16 2021 Until now, the resolution of international commercial and investment disputes has been dominated almost exclusively by international arbitration. But that is changing. Whilst they may be complementary mechanisms, international mediation and conciliation are now coming to the fore. Mediation rules that were in disuse gather momentum, and dispute settlement centres are introducing new mediation rules. The European Union is encouraging international mediation in both the commercial and investment spheres. The 2019 Singapore Mediation Convention of the United Nations Commission on International Trade Law (UNCITRAL) is aiming to ensure enforcement of international commercial settlement agreements resulting from mediation. The first investor-State disputes are mediated under the International Bar Association (IBA) rules. The International Centre for Settlement of Investment Disputes (ICSID)'s conciliation mechanism is resorted to more often than in the past. The International Chamber of Commerce (ICC) has recently administered its first mediation case based on a bilateral investment treaty, and a new training market on mediation is flourishing. Mediation in Commercial and Investment Disputes brings together a line-up of outstanding, highly-qualified experts from academia, mediation and arbitration institutions, and international legal practice, to address this highly topical, complex subject from a variety of angles.

The Littlehampton Libels May 11 2021 Littlehampton in the 1920s was menaced by a bizarre poison-pen case, which required the attention of a leading Metropolitan Police detective, and resulted in four criminal trials before the real culprit was finally punished. 'The Littlehampton Libels' untangles this mystery story, exploring the inner lives of an English working-class community

Participation in Crime Dec 26 2019 Following on from the earlier edited collection, *Loss of Control and Diminished Responsibility*, this book is the first volume in the *Substantive Issues in Criminal Law* series. It serves as a leading point of reference in the area relating to participation in crime and identifies the need for a consistent approach to the doctrinal and theoretical underpinnings of complicity liability. With a section on the UK analysing points of current interest, the book also has a large comparative section dealing with foreign jurisdictions and examines on the basis of a unified research grid how different legal systems treat core issues of participation in the context of criminal law. This book is a valuable reference resource for those in the criminal justice community in the UK and abroad and for academics, the judiciary and policy-makers.

Loss of Control and Diminished Responsibility Feb 26 2020 This book provides a leading point of reference in the field of partial defences to murder and with respect to the mental condition defences of loss of control and diminished responsibility in general. The work includes contributions from leading specialists from different jurisdictions. Divided into two parts, the first provides an analysis from the perspective of the UK, looking at particular concerns such as domestic violence, revenge and mixed motive killings, mistaken beliefs. The second part presents a comparative and international view to provide a wider background of how alternative systems treat issues of human frailty short of full insanity (loss of control, diminished responsibility) in the context of the criminal law.

Controlling Capital Oct 24 2019 Controlling Capital examines three pressing issues in financial market regulation: the contested status of public regulation, the emergence of 'culture' as a proposed modality of market governance, and the renewed ascendancy of private regulation. In the years immediately following the outbreak of crisis in financial markets, public regulation seemed almost to be attaining a position of command – the robustness and durability of which is explored here in respect of market conduct, European Union capital markets union, and US and EU competition policies. Subsequently there has been a softening of command and a return to public-private co-regulation, positioned within a narrative on culture. The potential and limits of culture as a regulatory resource are unpacked here in respect of occupational and organisational aspects, stakeholder connivance and wider political embeddedness. Lastly the book looks from both appreciative and critical perspectives at private regulation, through financial market associations, arbitration of disputes and, most controversially, market 'policing' by hedge funds. Bringing together a distinguished group of international experts, this book will be a key text for all those concerned with issues arising at the intersection of financial markets, law, culture and governance.

Corporate Finance Law Jan 27 2020 The second edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. Fully updated, it reflects developments in the law and the markets in the continuing aftermath of the Global Financial Crisis. One of its distinctive features is that it gives equal coverage to both the equity and debt sides of corporate finance law, and seeks, where possible, to compare the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter analyses the present law critically so as to enable the reader to understand the difficulties, risks and tensions in this area of law, and the attempts made by the legislature and the courts, as well as the parties involved, to deal with them. This book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.

Frequently Asked Questions on Anti-Bribery and Corruption Aug 14 2021 A practical guide to addressing the challenges managers face in implementing and enforcing new anti-bribery regulations. The Bribery Act became the law of the land in July 2011. It abolished all existing U.K. anti-bribery laws and replaced them with a suite of new regulations decidedly different and more strenuous than what has come before. Under it companies found noncompliant will be open to billions in penalties and remediation costs, and managers will be open to prosecution

if anyone associated with their company commits an offence covered by the act. As employees in nearly all departments will share responsibility for ensuring that adequate procedures are in place and enforced, there is a screaming need for practical, jargon-free guidance on the subject. This book fills that need. It arms managers and advisors with the knowledge and tools they need to implement, communicate and test controls and procedures that not only comply with but exceed the new anti-bribery requirements. It also offers priceless pointers on how to effectively react to bribery allegations if and when they occur. Packed with takeaway tips and checklists that put crucial information at readers' fingertips. Written by a chartered accountant and compliance expert, the book offers practical steps managers should take to guarantee company compliance. Describes best practices in anti-bribery and corruption compliance in all key business areas, including accounting, sales and marketing, management, legal, and internal auditing.

IPO Feb 20 2022 This book explains the key aspects of executing an international IPO. Packed with useful tips, it reviews rules and market practices from the US to Europe, the Middle East, and the Asia-Pacific region. Real-life case studies are used to illustrate all aspects of conducting an IPO, including documentation, valuation, as well as marketing issues. This new edition has been the subject of a complete and detailed revision, including new information pertaining to market developments. Some topics, such as spin-off offerings, SPACs, listing requirements, and due diligence have also been further expanded while some 15 additional IPOs have been included as examples to illustrate various aspects of new offerings. It is most suitable for entrepreneurs, chief executives, and CFOs of companies about to be floated, investor relations professionals, family offices, private equity, hedge fund and institutional investors, and finance students. It will also be of interest to market practitioners such as investment bankers in mergers and acquisitions, corporate finance, or equity capital markets departments, private bankers, as well as equity salespeople, traders, and research analysts. The book will appeal to those generally interested in financial markets and equity capital markets in particular. 'IPOs remain one of the most fascinating aspects of financial markets, but also one of its least understood. Espinasse has written a must-read primer for anyone interested in how IPOs work and what makes for a successful one. Read this book—and learn from one of the best.' —Herald van der Linde, CFA, chief Asia equity strategist at HSBC and author of *Asia Stock Markets: From the Ground Up* 'This third edition of *IPO: A Global Guide* provides a very readable, in-depth, and extremely well-structured guide and roadmap to the complex world of IPOs. It is laced with examples from across many markets and provides excellent practical advice and guidance on all aspects of the IPO process based on the author's substantial experience.' —Mike Trippitt, founder of Michael Joseph Consulting and banking expert 'A clear guide for anyone in the business of IPOs. It breaks down a complex subject into something simple and concise.' —Narayanan Somasundaram, regional finance editor of *Nikkei Asia*

Research Handbook on Freshwater Law and International Relations Nov 24 2019 Recent decades have seen pivotal changes in the management and protection of water resources, with human rights, environmental and water law each developing a strong interest in the conservation of fresh water. This surge in interest has meant that dispute settlement mechanisms, along with diplomatic tools, are becoming increasingly necessary for conflict resolution. This Handbook offers an analysis of the interaction between law and various forms of knowledge and expertise, ranging from economics to environmental and social sciences. Leading scholars examine general and specific water legal regimes and analyse the interplay between various disciplines in order to establish the extent to which law is informed by each.

Project Finance in Theory and Practice Nov 05 2020 Stefano Gatti describes the theory that underpins this cutting-edge industry, and then provides illustrations and examples from actual practice to illustrate that theory.

Landscapes of Law Mar 21 2022 International scholars offer ethnographic analyses of the relations between transnationalism, law, and culture. The recent surge of right-wing populism in Europe and the United States is widely perceived as evidence of ongoing challenges to the policies and institutions of globalization. But as editors Carol J. Greenhouse and Christina L. Davis observe in their introduction to *Landscapes of Law*, the appeal to national culture is not restricted to the ethno-nationalisms of the developing world outside of industrial democracies nor to insurgent groups within them. The essays they have collected in this volume reveal how claims of national culture emerge in the pursuit of transnationalism and, under some circumstances, become embedded within international law. The premise that there is inherent tension between nationalism and globalism is misleading. Whether asserted explicitly as state sovereignty or implicitly as cultural community, claims of national culture mediate how governments assert their interests and values when engaging with transnational law. *Landscapes of Law* demonstrates how nationalism operates in the contested zone between borderless capital and bordered states. Drawing from the fields of anthropology, international relations, law, political science, and sociology, the book's international contributors examine the ways in which claims of national differences are produced within transnational institutions. Insights from case studies across a wide range of topics reveal how such claims may be worked into policy prescriptions and legal arrangements or provide ad hoc bargaining chips. Together, they show that expressions of national culture outside of state boundaries consolidate claims of sovereignty. The contributors offer innovative frameworks for analyzing the relationships among transnationalism, law, and cultural claims at various levels and scales. They demonstrate how overlapping communities use law to define borders and shape relationships among actors rather than to generate a single social ordering. *Landscapes of Law* traces the theoretical implications generated by an understanding of transnational law that challenges the conventional separation of individual, community, society, national, and international spaces. Contributors: Katayoun Alidadi, Tugba Basaran, Rachel Brewster, Sandra Brunnegger, Christina L. Davis, Sara Dezalay, Marie-Claire Foblets, Henry Gao, Carol J. Greenhouse, David Leheny, Mark Fathi Massoud, Teresa Rodriguez-de-las-Heras Ballell, Gregory Shaffer, Mariana Valverde.

EU Securities and Financial Markets Regulation Mar 29 2020 The Global Financial Crisis has re-ordered how the EU intervenes in the EU financial market, both with respect to regulation and with respect to supervision. After 5 years of a behemoth reform agenda, the new landscape is now clear. Rule-making power has decisively moved to the EU and radical reforms have been made to the organization of supervision. *EU Securities and Financial Markets Regulation* provides the first comprehensive, critical, and contextual account of the vast new rule-book which now applies to the EU financial market in the aftermath of the seismic reforms which have followed the financial crisis. Topics covered in-depth include the AIFMD, EMIR, the Short Selling Regulation, the new market abuse and transparency regimes, the rating agency regime, the UCITS IV-VI reforms, and MiFID II/MiFIR; the analysis is wide-reaching, extending to secondary legislation and relevant soft law. The book also examines the far-reaching institutional changes which have followed and considers in detail the role and impact of the European Securities and Markets Authority and the potential impact of the Single Supervisory Mechanism for euro area banks on the supervision of the EU financial market. *EU Securities and Financial Markets Regulation* is the third edition of the highly successful and authoritative monograph first published as *EC Securities Regulation*. Almost entirely recast and re-written from the 2008 second edition to reflect the changes wrought by the Global Financial Crisis, it adopts the in-depth contextual and analytical approach of earlier editions and so considers the market, political, international, institutional, and constitutional context of the new regulatory and supervisory regime, and the underlying forces which have (and will continue to) shape it.

United States Statutes at Large Jun 12 2021

The Political Economy of Corporation Tax Jun 19 2019 Excellent technical writing on corporation tax abounds, but it tends to be inaccessible to public lawyers, political theorists and political economists. Although recent years have seen not only an explosion in public law scholarship but also a reawakening of interest in interpretative political theory and political economy, the potential of these perspectives to illuminate the corporation tax debate has remained unexplored. In this important work, John Snape seeks to reconcile these disparate strands of scholarship and to contribute to a new way of understanding and conceptualising the reform of the law relating to corporate taxation. Drawing on important developments in public law scholarship, the study combines elements of political theory and political economy. It advances a new interpretation of corporation tax law as an instrument of rule, through the maximisation of a nation's economic potential. Snape shows how corporate taxation belongs at the centre of any discussion of economic globalisation, not only because of the potential of national tax systems to influence inward investment decisions but also because of the potential of those decisions to shape the public interest that those tax systems might embody. Following public law and politics models, the book looks afresh at the impact of Britain's political institutions, of the processes of its representative government and of the theory that moulds and orders the values that the corporation tax code contains. This is a timely exploration of cutting-edge issues of public policy.

Murphy on Evidence Jan 19 2022 Fully updated, 'Murphy on Evidence' bridges the gap between the academic and practical treatment of the law of evidence. Written by an author with many years of experience in both practice and teaching, this book contains a comprehensive academic analysis of the law and a wealth of information on how the law is applied.

Population in China Oct 04 2020 China is home to a fifth of the world's inhabitants. For the last several decades, this huge population has been in flux: fertility has fallen sharply, mortality has declined, and massive rural-to-urban migration is taking place. The state has played a direct role in these changes, seeing population control as an important part of its intention to modernize the country. In this insightful new work, Nancy E. Riley argues that China's population policies and outcomes are not simply imposed by the state onto an

unresponsive citizenry, but have arisen from the social organization of China over the past sixty years. Riley demonstrates how China's population and population policy are intertwined and interact with other social and economic features. Riley also examines the unintended consequences of state directives, including the extraordinary number of missing girls, the rapid aging of the population, and an increase in inequality, particularly between rural and urban residents. Ultimately, China's demographic story has to be understood as a complex, multi-pieced phenomenon. This book will be essential reading for researchers and students of China and social demography, as well as non-specialists interested in the changing nature of China's population.

Geopolitical Risk, Sustainability and "Cross-Border Spillovers" in Emerging Markets, Volume II Sep 27 2022 Many emerging market countries are increasingly affected by their "informal economies", geopolitical risks, U.S. dollar dynamics, legal/regulatory institutions, preferential trade agreements (PTAs), social networks, international labor dynamics, cross-border spillovers (from developed countries to emerging markets; including Regulatory Spillovers), constitutional political economy crises (such as those that occurred in Europe, Asia, Africa and the U.S. during 2007-2020, including the COVID-19 pandemic) and inefficient microfinance. Due to these phenomena, enforcement commitment, compliance costs, sustainable growth, quality-of-life, political stability, financial stability, household economics, inequality and international trade outcomes can vary drastically across emerging markets countries. The COVID-19 pandemic has exposed many problems inherent in political systems, economic policy, Sustainability Policy, Social Welfare systems and governments' emergency powers during pandemics/epidemics and economic/financial crisis. These foregoing issues are the geopolitical risk context of this second volume. This book also introduces complex systems theories of the "Beliefs" of government and corporate actors. Thus, this book can help researchers to develop better Artificial Intelligence, Complex Systems and decision-theory models of geopolitical risk, public policy, asset-pricing, corporate strategy, labor markets and international capital flows, all of which can be critical decision factors for investment managers, corporate executives and government officials. In Solidarity, Aug 26 2022 "One of the leading intellectuals of the labor movement" explores the state of unions in the United States, as well as evaluating the forces working against them (Robin D. G. Kelley, author of Hammer and Hoe). In this thorough collection of inspiring and informed essays, Kim Moody, one of the world's most authoritative and recognized labor writers, asks key questions: What has happened to union organizing in the United States? Is there an alternative to the strike? How does the increased presence of immigrant and women workers change the balance of forces? What strategies can workers use to counteract company "union avoidance" campaigns and bureaucratic "business unionism"? What is the role of socialists in the labor movement? Drawing on his own background as a working-class radical, the works of Karl Marx, and the everyday experiences of nurses, miners, autoworkers, and more, Moody sketches a comprehensive picture of the state of US labor—and points the way forward for a rank-and-file union movement that can win real change. Praise for Kim Moody "One most of the most experienced working-class organizers in the US over the past few decades." —Monthly Review "[His] books and articles have for more than forty years provided essential analysis and strategy for the labor left." —New Politics

Sports Arbitration: A Coach for Other Players - ASA Special Series No. 41 Dec 18 2021 Sports Arbitration: A Coach for Other Players? is not about sports arbitration. The reader may thus ask: Well, what is it about? Arbitration can take inspiration from other human activities, for instance sports. Does it follow that arbitration in general can take inspiration from sports arbitration? Can sports arbitration serve as an example, be it for better or worse? And if so, what are the limits of this? These questions are highly topical in today's world of arbitration. Faced with the increased duration and costs of arbitral proceedings, and with the perception that litigators instead of business people have taken over the process, more and more users are calling for a return to fast, inexpensive forms of dispute resolution that are conducted by persons of the trade. This has resulted in a series of initiatives to introduce trade-specific forms of dispute resolution based on fast-track arbitration proceedings in a wide range of business sectors.

Litigating Trust Disputes in Jersey Apr 29 2020 This text is the first comprehensive guide to litigating trust disputes in Jersey, bringing together analysis of substantive Jersey law, civil procedure and the remedies available to parties appearing in trust litigation before the Royal Court of Jersey. The book is an indispensable tool for trust professionals and legal practitioners with clients that have an exposure to a trust structure in Jersey, whether through a trustee, a beneficiary or a protector, enforcer or other power holder. This book is also of importance to matrimonial, criminal or insolvency practitioners seeking information or documents for the purposes of foreign proceedings and those seeking asset recovery or enforcement against assets subject to Jersey trusts.

Resolving Business Disputes May 31 2020 Resolving Business Disputes will give company directors, business executives and other commercial decision-makers a unique and essential insight into how to resolve business disputes and to reach the best outcomes by making effective decisions. The book is also aimed at dispute resolution lawyers, litigation funders and insurers. It is a guide, explaining the unique choices created by commercial conflict, basic workings of the law about disputes, the main avenues of dispute resolution, the forecasting of litigation outcomes for cases going to court, the funding of legal cases, the management of the risk involved, the creation of a dispute strategy, how to make the best use of legal advice and how to negotiate effectively. Finally, by using objective criteria the guide explains how to decide whether to end a dispute by negotiated settlement or by taking a case all the way to a court judgment or other conclusion. In view of the profound implications of Covid-19 for trade and commerce, the book also contains an introduction to key issues raised by the pandemic for the resolution of contract disputes.
