Uncharted Waters Sep 22 2019 In the debate over Social Security reform, most of the work on individual accounts has focused on how individuals would save and manage those accounts during their working lives. Uncharted Waters goes further and addresses the often neglected questions about how and under what circumstances funds could be withdrawn from these accounts. In Uncharted Waters, a panel of recognized

experts created a framework for determining how benefits might be paid if private accounts become a new part of the Social Security system or are created separate from Social Security. This important volume analyzes the potential implications of different policy choices. It considers the ramifications of payout rules for families at different stages of life, particularly for economically disadvantaged groups. The contributors also address how any new individual account program would fit with traditional Social Security, employer-based pensions, and tax-advantaged individual retirement savings (401(k)s and IRAs). As the debate over individual savings accounts rages, *Uncharted Waters* offers a sound framework for informing public policy on both sides of the argument.

The Society of the Sacred Heart in the World of Its Times 1865 -2000 Apr 29 2020 After the death of its founder in 1865, the Society of the Sacred Heart experienced exceptional recruitment and expansion, and departure from France of more than 2500 religious at the beginning of the century. Its story is that of the thousands of women who joined it to root their lives in its charism. In the forty countries where they have been sent, they have had to confront liberalism and anti-clericalism, revolution, the effects of Nazism and Marxism and world wars that destroyed their houses and scattered their members. After the Second Vatican Council, the elimination of cloister opened new fields of apostolic work to the Society. This book shows how the congregation developed amid internal crises, which did not differ from those in the Church and civil society, and how from these crises there emerged little by little a new way to be a Religious of the Sacred Heart.

Richmond Redeemed Nov 24 2019 Richmond Redeemed pioneered study of Civil War Petersburg. The original (and long out of print) award-winning 1981 edition conveyed an epic narrative of crucial military operations in early autumn 1864 that had gone unrecognized for more than 100 years. Readers will rejoice that Richard J. Sommers's masterpiece, in a revised Sesquicentennial edition, is once again available. This monumental study focuses on Grant's Fifth Offensive (September 29 to October 2, 1864), primarily the Battles of Chaffin's Bluff (Fort Harrison) and Poplar Spring Church (Peebles's Farm). The Union attack north of the James River at Chaffin's Bluff broke through Richmond's defenses and gave Federals their greatest opportunity to capture the Confederate capital. The corresponding fighting outside Petersburg at Poplar Spring Church so threatened Southern supply lines that General Lee considered abandoning his Petersburg rail center six months before actually doing so. Yet hard fighting and skillful generalship saved both cities. This book provides thrilling narrative of opportunities gained and lost, of courageous attack and desperate defense, of incredible bravery by Union and Confederate soldiers from 28 states, Maine to Texas. Fierce fighting by four Black brigades earned their soldiers thirteen Medals of Honor and marked Chaffin's Bluff as the biggest, bloodiest battle for Blacks in the whole Civil War. In addition to his focused tactical lens, Dr. Sommers offers rich analysis of the generalship of Ulysses S. Grant, Robert E.

Lee, and their senior subordinates, Benjamin Butler, George G. Meade, Richard S. Ewell, and A. P. Hill. The richly layered prose of *Richmond Redeemed*, undergirded by thousands of manuscript and printed primary accounts from more than 100 archives, has been enhanced for this Sesquicentennial Edition with new research, new writing, and most of all new thinking. Teaching future strategic leaders of American and allied armed forces in the Army War College, conversing with fellow Civil War scholars, addressing Civil War audiences across the nation, and reflecting on prior assessments over the last 33 years have stimulated in the author new perspectives and new insights. He has interwoven them throughout the book. His new analysis brings new dimensions to this new edition. Dr. Sommers was widely praised for his achievement. In addition to being a selection of the History Book Club, the National Historical Society awarded him the Bell Wiley Prize as the best Civil War book for 1981-82. Reviewers hailed it as "a book that still towers among Civil War campaign studies" and "a model tactical study [that] takes on deeper meaning . . . without sacrificing the human drama and horror of combat." Complete with maps, photos, a full bibliography, and index, *Richmond Redeemed* is modeled for a new generation of readers, enthusiasts, and Civil War buffs and scholars, all of whom will welcome and benefit from exploring how, 150 years ago, Richmond was redeemed.

No Peace, No Honor Oct 16 2021 In 1973, Henry Kissinger shared the Nobel Peace Prize for the secret negotiations that led to the Agreement on Ending the War and Restoring Peace in Vietnam. Nixon famously declared the 1973 agreement to be "peace with honor"; America was disengaging, yet South Vietnam still stood to fight its own war. Kissinger promptly moved to seal up his personal records of the negotiations, arguing that they are private, not government, records, and that he will only allow them to be unsealed after his death. *No Peace, No Honor* deploys extraordinary documentary bombshells, including a complete North Vietnamese account of the secret talks, to blow the lid off the true story of the peace process. Neither Nixon and Kissinger's critics, nor their defenders, have guessed at the full truth: the entire peace negotiation was a sham. Nixon did not plan to exit Vietnam, but he knew that in order to continue bombing without a congressional cutoff, he would need a fig leaf. Kissinger negotiated a deal that he and Nixon expected the North to violate. Ironically, their long-maintained spin on what happened next is partially true: only Watergate stopped America from sending the bombers back in. This revelatory book has many other surprises. Berman produces new evidence that finally proves a long-suspected connection between candidate Nixon in 1968 and the South Vietnamese government. He tells the full story of Operation Duck Hook, a large-scale offensive planned by Nixon as early as 1969 that would have widened the war even to the point of bombing civilian food supplies. He reveals transcripts of candidate George McGovern's attempts to negotiate his own October surprise for 1972, and a seriocomic plan by the CIA to overthrow South Vietnam's President Thieu even as late as 1975. Throughout, with page-turning dialogue provided by official transcriptions and notes, Berman reveals the step-by-step betrayal of South Vietnam that started with a short-circuited negotiations loop, and ended with double-talk, false promises, and outright abandonment. Berman draws on hundreds of declassified documents, including the notes of Kissinger's aides, phone taps of the Nixon campaign in 1968, and McGovern's own transcripts of his negotiations with North Vietnam. He has been able to double- and triple-check North Vietnamese accounts against American notes of meetings, as well as previously released bits of the record. He has interviewed many key players, including high-level South Vietnamese officials. This definitive account forever and completely rewrites the final chapter of the Vietnam war. Henry Kissinger's Nobel Prize was won at the cost

of America's honor.

The Other Rights Revolution Jan 19 2022 In 1973, a group of California lawyers formed a non-profit, public-interest legal foundation dedicated to defending conservative principles in court. Calling themselves the Pacific Legal Foundation, they declared war on the U.S. regulatory state--the sets of rules, legal precedents, and bureaucratic processes that govern the way Americans do business. Believing that the growing size and complexity of government regulations threatened U.S. economy and infringed on property rights, Pacific Legal Foundation began to file a series of lawsuits challenging the government's power to plan the use of private land or protect environmental qualities. By the end of the decade, they had been joined in this effort by spin-off legal foundations across the country. *The Other Rights Revolution* explains how a little-known collection of lawyers and politicians--with some help from angry property owners and bulldozer-driving Sagebrush Rebels--tried to bring liberal government to heel in the final decades of the twentieth century. Decker demonstrates how legal and constitutional battles over property rights, preservation, and the environment helped to shape the political ideas and policy agendas of modern conservatism. By uncovering the history--including the regionally distinctive experiences of the American West--behind the conservative mobilization in the courts, Decker offers a new interpretation of the Reagan-era right.

Walter Hines Page Jun 19 2019 The varied career of Walter Hines Page affected many facets of the American political and social milieu from the end of Reconstruction through World War I. A North Carolinian, Page was one of the first southerners after Reconstruction to argue that sectional hostility was needless, and he constantly worked to restore national union and frequently acted as an interpreter for the North and the South. As a journalist, publisher, reformer, president-maker, and ambassador, he strove to assure both North and South that the southerner was basically an American, that southern problems were national ones, and that education and hard work could recreate the Union. As a young man, Page found the South too stifling to give scope to his ambitions. He left it for good at the age of twenty-nine to make a brilliant career as editor and book publisher in the North. He served as editor of Forum, Atlantic Monthly, and World's Work. Later he founded the publishing firm Doubleday, Page & Company. As a magazine editor he wrote about the problems of the South; as a book publisher he introduced many southern writers to the nation; as a member of several of the most powerful philanthropic boards he sought funds to improve education and public health in the South. As a result of his early support of Woodrow Wilson for the presidency, Page was appointed ambassador to the Court of St. James's from which he fervently advocated the Allied cause. Thoroughly researching both American and British government documents and private papers, and using interviews with Page's contemporaries, Cooper reinterprets and establishes the significance of Page's career. You Can't Eat Freedom Jun 24 2022 Two revolutions roiled the rural South after the mid-1960s: the political revolution wrought by the passage of civil rights legislation, and the ongoing economic revolution brought about by increasing agricultural mechanization. Political empowerment for black southerners coincided with the transformation of southern agriculture and the displacement of thousands of former sharecroppers from the land. Focusing on the plantation regions of Alabama, Louisiana, and Mississippi, Greta de Jong analyzes how social justice activists responded to mass unemployment by lobbying political leaders, initiating antipoverty projects, and forming cooperative enterprises that fostered economic and political autonomy, efforts that encountered strong opposition from free market proponents who opposed government action to solve the crisis. Making clear the relationship between the civil rights movement and the War on Poverty, this history of rural organizing shows how responses to labor displacement in the South shaped the experiences of other Americans who were affected by mass layoffs in the late twentieth century, shedding light on a debate that continues to reverberate today.
