Engaging Writers with Multigenre Research Projects Oct 04 2020 Multigenre research projects affirm students' home cultures while developing important academic skills consistent with the Common Core State Standards in reading and writing. This book will guide teachers in assigning, scaffolding, and assessing multigenre research assignments, including how to choose a topic, pace the work, and keep writers on track to achieve specific goals. Chapters are arranged by topic with each containing a description of the educational rationale for the topic, an introductory activity that serves as an inspiration for students in selecting a topic, and field-tested minilessons with step-by-step instructions. All the traditional elements of a research paper—quotations from experts, works cited, explanation, synthesis, and analysis—are brought to life as students animate information with emotion and imagination. An additional chapter describes how teachers have adapted this project for

other subjects, such as social studies, science, and literature. Book Features: Prompts focused on home culture, inclusive model texts, and support for diverse language proficiencies. Correlations between writing skills and the Common Core State Standards, including academic citation and reading historical documents and other nonfiction texts. Practical management strategies for teaching large writing projects, including prewriting, drafting, revising, proofreading, and publishing. Publication options that include everything from paper-crafting to multimodal composition. A companion website with downloadable handouts and additional teaching strategies.

Cut and Fold Techniques for Pop-Up Designs Jan 07 2021 Introducing techniques for making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the third dimension. HTML5 and CSS3 Sep 22 2019 HTML5 and CSS3 are more than just buzzwords--they're the foundation for today's web applications. This book gets you up to speed on the HTML5 elements and CSS3 features you can use right now in your current projects, with backwards

compatible solutions that ensure that you don't leave users of older browsers behind. This new edition covers even more new features, including CSS animations, IndexedDB, and client-side validations. HTML5 and CSS3 power today's web applications, with semantic markup, better forms, native multimedia, animations, and powerful APIs. You'll get hands-on with all the new features with practical example projects, and find what you need quickly with this book's modular structure. "Falling Back" sections show you how to create solutions for older browsers, and "The Future" sections at the end of each chapter get you excited about the possibilities when features mature. This revised second edition walks you through new features such as IndexedDB, CSS Animations, SVG, and more, along with updated fallback solutions. You'll use HTML5's new markup to create better structure for your content and better interfaces for your forms. You'll work with new form controls and validations, and build interfaces that are accessible to assistive technology and mobile devices. You'll draw with the Canvas and SVG, do simple animations with pure CSS, work with advanced CSS selectors, and make audio and video play natively. You'll bring your web apps to the next level as you use Web Storage and IndexedDB to save data on the client and make applications available offline. And you'll discover how to use web sockets, geolocation, cross-document messaging, and the History API to create even more interactive applications. Today, you have the flexibility that used to be only available through large JavaScript libraries or proprietary plugins. Get ready for today's web. What You Need: You'll need the latest versions of Google Chrome, Firefox, Opera, and Internet Explorer, along with a text editor with good support for HTML5 and CSS3 syntax. Instructions for testing on older versions of Internet Explorer are included in the book.

Words in memoirs or life success story gift books have a life of their own. The purpose of a hand-made, finely bound memoirs or business success-story gift book is to show how two or more people bring out the best in one another. You'd be surprised how many people are satisfied to pay up to \$10,000 (or more depending upon the publisher) to have only one copy of a hand-bound hardcover book published about their event or life story. What does it take to create and publish a memoirs gift book commemorating a Bar Mitzvah, confirmation, wedding, or true experience? What quality of personal book do you want to make from scratch-writing, printing, and binding? As far as printing and binding, you can make one finished book at a cost to you of only \$1.50-\$4.50. What you charge a client depends on what it costs you. If you create and publish a custom gift book, you'd publish only one copy of a hand bound, hardcover book. The tome would contain anywhere from 60 to 100 photos. Text material based on phone or live interviews running at least two hours for one person (or more if needed and about two hours spent per each interview) would be about 80 to 120 published pages-

slightly more, but only if necessary. Look at yourself as a designer, writer, interviewer, and book binder. Learn how to make your own pop-up books for all ages.
