The Invention of the White Race Feb 08 2021 When the first Africans arrived in Virginia in 1619, there were no "white" people there; nor, according to colonial records, would there be for another sixty years. Historical debate about the origin of racial slavery has focused on the status of the Negro in seventeenth-century Virginia and Maryland. However, as Theodore W. Allen argues in this magisterial work, what needs to be studied is the transformation of English, Scottish, Irish and other European colonists from their various statuses as servants, tenants, planters or merchants into a single new all-inclusive status: that of whites. This is the key to the paradox of American history, of a democracy resting on race assumptions. Volume One of this two-volume work attempts to escape the "white blind spot" which has distorted consecutive studies of the issue. It does so by looking in the mirror of Irish history for a definition of racial oppression and for an explanation of that phenomenon in terms of social control, free from the absurdities of classification by skin color. Compelling analogies are presented between the history of Anglo-Irish and British rule in Ireland and American White Supremacist oppression of Indians and African-Americans. But the relativity of race is shown in the sea change it entailed, whereby emigrating Irish haters of racial oppression were transformed into White Americans who defended it. The reasons for the differing outcomes of Catholic Emancipation and Negro Emancipation are considered and occasion is made to demonstrate Allen's distinction between racial and national

oppression.

Scottish and Irish Romanticism Mar 29 2020 Scottish and Irish Romanticism is the first single-author book to address the main non-English Romanticisms of the British Isles. Murray Pittock begins by questioning the terms of his chosen title as he searches for a definition of Romanticism and for the meaning of 'national literature'. He proposes certain determining 'triggers' for the recognition of the presence of a national literature, and also deals with two major problems which are holding back the development of a new and broader understanding of British Isles Romanticisms: the survival of outdated assumptions in ostensibly more modern paradigms, and a lack of understanding of the full range of dialogues and relationships across the literatures of these islands. The theorists whose works chiefly inform the book are Bakhtin, Fanon and Habermas, although they do not define its arguments, and an alertness to the ways in which other literary theories inform each other is present throughout the book. Pittock examines in turn the historiography, prejudices, and assumptions of Romantic criticism to date, and how our unexamined prejudices still stand in the way of our understanding of individual traditions and the dialogues between them. He then considers Allan

Ramsay's role in song-collecting, hybridizing high cultural genres with broadside forms, creating in synthetic Scots a 'language really used by men', and promoting a domestic public sphere. Chapters 3 and 4 discuss the Scottish and Irish public spheres in the later eighteenth century, together with the struggle for control over national pasts, and the development of the cults of Romance, the Picturesque and Sentiment: Macpherson, Thomson, Owenson and Moore are among the writers discussed. Chapter 5 explores the work of Robert Fergusson and his contemporaries in both Scotland and Ireland, examining questions of literary hybridity across not only national but also linguistic borders, while Chapter 6 provides a brief literary history of Burns' descent into critical neglect combined with a reevaluation of his poetry in the light of the general argument of the book. Chapter 7 analyzes the complexities of the linguistic and cultural politics of the national tale in Ireland through the work of Maria Edgeworth, while the following chapter considers of Scott in relation to the national tale, Enlightenment historiography, and the European nationalities question. Chapter 9 looks at the importance of the Gothic in Scottish and Irish Romanticism, particularly in the work of James Hogg and Charles Maturin, while Chapter 10, 'Fratrism', explores a new concept in the manner in which Scottish and Irish literary, political and military figures of the period related to Empire.

Imagining Ireland's Pasts Oct 24 2019 *Imagining Ireland's Pasts* describes how various authors addressed the history of early modern Ireland over four centuries and explains why they could not settle on an agreed narrative. It shows how conflicting interpretations broke frequently along denominational lines, but that authors were also influenced by ethnic, cultural, and political considerations, and by whether they were resident in Ireland or living in exile. *Imagining Ireland's Past: Early Modern Ireland through the Centuries* details

how authors extolled the merits of their progenitors, offered hope and guidance to the particular audience they addressed, and disputed opposing narratives. The author shows how competing scholars, whether contributing to vernacular histories or empirical studies, became transfixed by the traumatic events of the sixteenth and seventeenth centuries as they sought to explain either how stability had finally been achieved, or how the descendants of those who had been wronged might secure redress.

A Short History of Ireland's Writers Feb 20 2022 An introduction to all the leading Irish writers and some of the lesser known playwrights, novelists, short story writers, poets, placing them in context and providing a list of their works. Commentaries give brief but telling insights into their work. The story of Irish writing is followed, beginning with Swift, and working through playwrights Synge and O'Casey to Beckett and Friel; from nineteenth-century poetry through Yeats to Seamus Heaney and Paul Durcan; in novels, from Maria Edgeworth, through Joyce, Elizabeth Bowen, Kate O'Brien, Flann O'Brien to contemporaries Julia O'Faolain, Roddy Doyle and Anne Enright.

The Irish Language (RLE Linguistics E: Indo-European Linguistics) Jun 12 2021 In compiling this bibliography, the main purpose was to assemble references to published material of a sociolinguistic nature concerning the Irish language. The intent was not to cover publications treating language per se, but rather to consider those dealing with language in its social context. Represented here are articles, chapters, books and pamphlets bearing upon social, historical, psychological and educational aspects of Irish - including the decline of the language, the restoration effort, the relationship of language to nationality and religion, and studies of important figures in the language movement.

The post-crisis Irish voter Mar 09 2021 This is the definitive study of the Irish general election of 2016 - the most dramatic election in a generation, which resulted in the worst electoral outcome for Ireland's established parties, the most fractionalized party system in the history of the state, and the emergence of new parties and groups. These outcomes follow a pattern seen across a number of Western Europe's established democracies in which the 'deep crisis' of the Great Recession has wreaked havoc on party systems. The objective of this book is to assess this most extraordinary of Irish elections both in its Irish and wider cross-national context. With contributions from leading scholars on Irish elections, and using a unique dataset - the Irish National Election Study 2016 - this volume explores voting patterns at Ireland's first post crisis election and it considers the implications for the electoral landscape and politics in Ireland.

The Surnames of Ireland Mar 21 2022 Ireland was one of the earliest

countries to evolve a system of hereditary surnames. More than 4,000 Gaelic, Norman and Anglo-Irish surnames are listed in this book, giving a wealth of information on the background and location of Irish families. Edward MacLysaght was a leading authority on Irish names and family history. He served as Chief Herald and Genealogical Officer of the Irish Office of Arms. He was also Keeper of Manuscripts of the National Library of Ireland and was Chairman of the Manuscripts Commission. This book, which was first published in 1957 and now is in its sixth edition, is being reprinted for the fourth time and remains the definitive record of Irish surnames, their genealogy and their origins.

Verse in English from Eighteenth-century Ireland Nov 24 2019 This pioneering anthology introduces many previously neglected eighteenth-century writers to a general readership, and will lead to a re-examination of the entire canon of Irish verse in English. Between 1700 and 1800, Dublin was second only to London as a center for the printing of poetry in English. Many fine poets were active during this period. However, because Irish eighteenth-century verse in English has to a great extent escaped the scholar and the anthologist, it is hardly known at all. The most innovative aspect of this new anthology is the inclusion of many poetic voices entirely unknown to modern readers. Although the anthology contains the work of well-known figures such as John Toland, Thomas Parnell, Jonathan Swift, Patrick Delany, Laetitia Pilkington and Oliver Goldsmith, there are many verses by lesser known writers and nearly eighty anonymous poems which come from the broadsheets, manuscripts and chapbooks of the time. What emerges is an entirely new perspective on life in eighteenth-century Ireland. We hear the voice of a hard working farmer's wife from county Derry, of a rambling weaver from county Antrim, and that of a woman dying from drink. We learn about whale-fishing in county Donegal, about farming in county Kerry and bull-baiting in Dublin. In fact, almost every aspect of life in eighteenth-century Ireland is described vividly, energetically, with humor and feeling in the verse of this anthology. Among the most moving poems are those by Irish-speaking poets who use amhran or song meter and internal assonance, both borrowed from Irish, in their English verse. Equally interesting is the work of the weaver poets of Ulster who wrote in vigorous and energetic Ulster-Scots. The anthology also includes political poems dating from the reign of James II to the Act of Union, as well as a selection of lesser-known nationalist and Orange songs. Each poem is fully annotated and the book also contains a glossary of terms in Hiberno-English and Ulster Scots.

From Sounds to Structures Jan 27 2020 The term 'Maya', in Indian traditions, refers to our sensory perception of the world and, as such, to a superficial reality (or 'un-reality') that we must look beyond to find the inner reality of things. Applied to the study of language, we perceive sounds, a superficial reality, and then we seek structures, the underlying reality in what we call phonology, morphology, and syntax. This volume starts with an introduction by the editors, which shows how the various papers contained in the volume reflect the spectrum of research interests of Andrea Calabrese, as well as his influence on

the work of colleagues and his students. Contributors, united in their search for the abstract structures that underlie the appearances of languages include linguists such as Adriana Belletti, Paola Benincà, Jonathan Bobaljik, Guglielmo Cinque, David Embick, Mirko Grimaldi, Harry van der Hulst, Michael Kenstowicz, Maria Rita Manzini, Andrew Nevins, Elizabeth Pyatt, Luigi Rizzi, Leonardo Savoia, Laura Vanelli, Bert Vaux, Susi Wurmbrand, as well as a few junior researchers including Mariachiara Berizzi, Giuliano Bocci, Stefano Canalis, Silvio Cruschina, Irina Monich, Beata Moskal, Diego Pescarini, Joseph Perry, Roberto Petrosino, and Kobey Schwayder.

Protestant War May 31 2020 The Protestants of Ireland are a missing piece in the puzzle of the wars of the three kingdoms of the 1640s. This book provides a rich narrative of the struggles and dilemmas of that community, and its place in the wider conflict throughout Britain and Ireland. New light is shed upon the aims and aspirations of parliamentarians, royalists and covenanters in civil war England, and the formation of Protestant and "British" identities in seventeenth century Ireland.

Irish Politics Today Jun 19 2019 This new edition has been revised and updated to include coverage of the 1997 general election, the creation of a new coalition of Fianna Fail, and the Progressive Democrats under Bertie Ahern. Reflecting on current developments in Irish politics, the authors also examine other crucial issues such as the implications of a written constitution, changes in the party system, the power of major special interest groups, the role of the civil service, the position of the

media, and membership in the European Union.

The Irish Revolution Jan 07 2021 How the Irish Revolution was shaped by international actors and events The Irish War of Independence is often understood as the culmination of centuries of political unrest between Ireland and the English. However, the conflict also has a vitally important yet vastly understudied international dimension. The Irish Revolution: A Global History reassesses the conflict as an inherently transnational event, examining how circumstances and individuals abroad shaped the course Ireland's struggle for independence. Bringing together leading international scholars of modern Ireland, its diaspora, and the British Empire, this volume discusses the Irish revolution in a truly global sense. The text situates the conflict in the wider context of the international flourishing of anti-colonial movements following World War I. Despite the differences between these movements, their proponents communicated extensively with each other, learning from and engaging with other revolutionaries in anti-imperial metropolises such as Paris, London, and New York. The contributors to this volume argue that Irish nationalists at home and abroad were intimately involved in this exchange, from mobilizing Ireland's vast diaspora in support of Irish independence to engaging directly with radical causes elsewhere. The Irish Revolution is a vital work for all those interested in Irish history, providing a new understanding of Ireland's place in the evolving postwar world.

Routledge Library Editions: Linguistics Jul 13 2021 Routledge Library Editions: Linguistics brings together as one set, mini-sets, or individual volumes, a series of previously out-of-print classics from a variety of academic imprints. How Ireland Voted 2020 Nov 05 2020 This book is the 9th volume in the established How Ireland Voted series and provides the definitive story of Ireland's mould-breaking 2020 election. For the first time ever, Sinn Féin won the most votes, the previously dominant parties shrank to a fraction of their former strengths, and the government to emerge was a coalition between previously irreconcilable enemies. For these reasons, the election marks the end of an era in Irish politics. This book analyses the course of the campaign, the parties' gains and losses, and the impact of issues, especially the role of Brexit. Voting behaviour is explored in depth, with examination of the role of issues and discussion of the role of social cleavages such as class, age and education. The process by which the government was put together over a period of nearly five months is traced through in-depth interviews with participants. And six candidates who contested Election 2020 give first-hand reports of their campaigns.

Great Irish Heroes - Fifty Irishmen and Women Who Shaped the World Oct 04 2020 How did the Irish independence movement lead directly to the invention of the modern submarine? Who was the Irish

'Queen' of Paraguay whose delusions of grandeur caused the destruction of her adopted country? Who escaped execution for participating in the Easter Rising of 1916, only to go on and be elected to the UK Parliament in London? Whose belief in reform through non-violent means became the inspiration for Mahatma Ghandi, Nelson Mandela and Martin Luther King? The answers to these questions and more can be found in the pages of Great Irish Heroes, covering over a thousand years of Irish history and encompassing outstanding leaders in a broad range of pursuits, including literature, mathematics, sport, religion, entertainment and politics. Ireland has for centuries produced a great number of exceptional, heroic men and women far out of proportion to the island's small population and geographical size. It is also true to say that few nations have been so shaped by their history, a history with which the country still resonates today. In this companion volume to his Great Scottish Heroes, Stuart Pearson examines the lives and careers of fifty of the greatest Irishmen and women from St Columba to Brian O'Driscoll, Brian Boru to Pierce Brosnan. In doing so, he shows how this remarkable island race has contributed so much to our world, and continues to do so to this day.

Irish English Apr 22 2022 English has been spoken in Ireland for over 800 years, making Irish English the oldest variety of the language outside Britain. This 2007 book traces the development of English in Ireland, both north and south, from the late Middle Ages to the present day. Drawing on authentic data ranging from medieval literature to authentic contemporary examples, it reveals how Irish English arose, how it has developed, and how it continues to change. A variety of central issues are considered in detail, such as the nature of language contact and the shift from Irish to English, the

sociolinguistically motivated changes in present-day Dublin English, the special features of Ulster Scots, and the transportation of Irish English to overseas locations as diverse as Canada, the United States, and Australia. Presenting a comprehensive survey of Irish English at all levels of linguistics, this book will be invaluable to historical linguists, sociolinguists, syntacticians and phonologists alike.

The Oxford Handbook of Irish Politics Jan 19 2022 Ireland has enjoyed continuous democratic government for almost a century, an unusual experience among countries that gained their independence in the 20th century. But the way this works in practice has changed dramatically over time. Ireland's colonial past had an enduring influence over political life for much of the time since independence, enabling stable institutions of democratic accountability, while also shaping a dismal record of economic under-development and persistent emigration. More recently, membership of the EU has brought about far-reaching transformation across almost all aspects of Irish life. But if anything, the paradoxes have only intensified. Now one of the most open economies in the world, Ireland has experienced both rapid growth and one of the most severe crashes in the wake of the Great Recession. On some measures Ireland is among the most affluent countries in the world, yet this is not the lived experience for many of its citizens. Ireland is an unequivocally modern state, yet public life continues to be marked by formative ideas and values in which tradition and modernity are held in often uneasy embrace. It is a small state that has ambitions to leverage its distinctive place in the Atlantic and European worlds to carry more weight on the world stage. Ireland continues to be deeply connected to Britain through ties of culture and trade, now matters of deep concern in the context of Brexit. And the old fault-lines between North and South, between Ireland and Britain, which had been at the core of one of Europe's longest and bloodiest civil conflicts, risk being reopened by Britain's new hard-edged approach to national and European identities. These key issues are teased out in the 41 chapters of this book, making this the most comprehensive volume on Irish politics to date.

Language and Dialect Contact in Ireland Aug 14 2021 Warren Maguire examines Mid-Ulster English as a key case of new dialect formation, considering the roles of language shift and dialect contact in its phonological development. He explores the different processes which led to the development of MUE through contact between dialects of English, Scots and Irish and examines the history of a wide range of consonantal and vocalic features. In addition to determining

the phonological origins of MUE, Maguire shows us why the dialect developed in the way that it did and considers what the phonology of the dialect can tell us about the nature of contact between the input language varieties. In doing so, he demonstrates the kinds of analysis and techniques that can be used to explain the development of extra-territorial varieties of English and colonial dialects in complex situations of contact, and shows that Irish English provides a useful testing-ground for models of new dialect formation. As one of the oldest 'new' extra-territorial varieties of English, one which developed in a context of language and dialect contact, MUE provides an excellent opportunity to study how new dialects develop in situations of settlement colonisation.

Evaluating Empire and Confronting Colonialism in Eighteenth-Century Britain Feb 26 2020 This volume comprehensively examines how metropolitan Britons spoke and wrote about the British Empire

during the short eighteenth century, from about 1730 to 1790. The work argues that following several decades of largely uncritical celebration of the empire as a vibrant commercial entity that had made Britain prosperous and powerful, a growing familiarity with the character of overseas territories and their inhabitants during and after the Seven Years' War produced a substantial critique of empire. This critique evolved out of a widespread revulsion against the behaviours exhibited by Britons overseas and built on a language of 'otherness' that metropolitans had used since the beginning of overseas expansion to describe its participants, the societies and polities that Britons abroad constructed in their new habitats. It used the languages of humanity and justice as standards to evaluate and condemn the behaviours of both overseas Britons and subaltern people in the British Empire, whether in India, the Americas, Africa or Ireland.

Agri-food Quality II Sep 22 2019 The proceedings of an international conference in Turku, Finland, April 1998 on the quality management

of plant-based food materials throughout the production chain from field to table. The 89 papers discuss developments in improving vegetable and fruit quality through plant breeding, modifying cultivation technology, and optimizing practices both before and after the harvest. The sessions cover quality challenges in the future, consumer attitudes to improving the quality of crops and food, sustainable production, the effects of post-harvest and pre-harvest practices on quality, quality assessment, and quality improvements and functional foods.
